

# **MEET THE 2026 HIGHLINE ELECTRIC ASSOCIATION BOARD CANDIDATES**

## **District 1 – Logan, Weld or Washington County, Colorado – Brad Alan Stromberger**

Brad Stromberger was born and raised in Logan County. He earned an Associate of Science degree from Northeastern Junior College and a Bachelor of Science degree in Animal Science from Colorado State University. He is a member of Stromberger Land and Cattle Company, LLC and a managing partner in Clear Water Farms Partnership. Both are family run irrigated farm and ranch operations. Stromberger and his wife, Jonna, have three children.

Currently, Brad serves as president of Lower Logan Well Users, Inc., District 64 Reservoir Company, and Logan County Director of the Lower South Platte Water Conservancy District. As a part of his service to these organizations, he has gained the practical knowledge and experience of current issues by serving on their Legal and Legislative Committees.

Brad said "Due to my current and past work in the ag community, I believe I have the experience and leadership skills that are necessary to be an effective Highline Electric Association board member. Also, because of my interest, involvement and knowledge of the energy industry, I can effectively promote the goals of this cooperative. This, coupled with my continued desire to serve the membership, will allow me to progress in this ever-changing electric industry. I ask for your vote in this election."

## **District 1 – Logan, Weld or Washington County, Colorado – Pamela J. Stieb**

Pam Stieb was elected to the Highline Electric Board of Directors in 2017. Pam gained extensive experience in business working in healthcare for 28 years including, but not limited to, administration, management, human resources, policies, contracts and construction management. She is active in her church and has served on the NJC Business Department Advisory Board. She served one term on the Logan County Economic Development Corporation: two years as the treasurer. Pam has earned her Credentialed Cooperative Director (CCD) and Board Leadership (BLC) Certificate to better serve you, the members. She has served as the Board Treasurer for the past four years and serves on the Revolving Loan Fund Committee.

Pam and her husband Jerome own and operate Stieb Farms, LLC, raising alfalfa, wheat and yearling steers and farms with their son, Jayden. They are members of the Chimney Canyons Grazing Association. They enjoy spending time with their three children and their families, which include three grandsons and two granddaughters and are looking forward to one more grandson in February.

Pam said, "I have really enjoyed my three terms as a Director on the HEA Board and serving as the Treasurer. Networking with other directors has been invaluable and I participate in continuing education when possible. We have a board that is committed to keeping your electricity affordable and reliable and are working to meet the challenges and opportunities that our industry is experiencing. We have a great staff and management team that will help us to meet these challenges. I would ask for your vote so that I may continue to represent the membership as a Director and work with the board to serve the members."

## **District 2 – Phillips or Yuma County, Colorado – Aaron Sprague**

Aaron Sprague was appointed to the Highline Electric Board of Directors in 2011. He is a Holyoke native and a graduate of Holyoke High School. Aaron earned a Bachelor's degree in Agricultural Business and a Master's degree in Natural Resources Economics from Colorado State University.

Aaron farms, both irrigated and dryland, with his father. They raise corn, wheat, pinto beans and millet. He is involved in the family trucking business, primarily trucking pigs for Seaboard Foods. He also serves as the board treasurer on the Republican River Water Conservation District Board.

Aaron and Amber, his wife, are the parents of five children: Miles, Wyatt, Reid, Lia and Raia. In his spare time, Aaron enjoys spending time with family, all sports and coaching football and basketball.

Aaron said, "I have enjoyed serving on the Highline Electric Board. The board works well together, and I look forward to representing our members' interests as we work our way through difficult decisions due to major changes in the electric industry, as well as changes in the availability and use of groundwater within the Republican River basin."
