Energy Efficiency Rebates

Use Less. Conserve More.

As a not-for-profit electric co-op, our focus is on providing our members with safe and reliable electricity, not creating profits for investors. In fact, we encourage all members to use our energy efficiency rebate program and online efficiency tools to help manage energy use. HEA's rebate program is a great way to start putting energy efficiency to work for you.

Residential Rebates

- Induction Ranges/Cooktop
- Smart Thermostat
- Whole House Fan
- Heat Pump
- Evaporative Cooler
- Clothes Dryer

Commercial/Irrigation Rebates

- Heat Pump
- Motors
- Auditing
- Sprinkler Packages
- VSD

2027 Electrify & Save Rebate Product Guide

- Eligible rebates must be submitted within **90 days** of product purchase date or delivery/installation date.
- Rebate amounts under $50 will be issued as a credit on the Highline account. All rebate requests must include itemized payment receipts (including product model number) and ENERGY STAR® verification documentation where stated.

Product	Eligible Rebate *effective 1/1/2027
Refrigerator/Freezer Recycling (7.75 cu ft. or greater)	**$60** per unit. Proof of retailer haul away and/or itemized invoice is required to receive recycling credit. Limit of two recycles per member, per year.
Induction Cooktops/Ranges (measuring 30" or larger)	**$100** per unit for electric-to-induction. **$350** per unit for gas-to-induction or new construction. Replacement of gas units with induction require verification of gas cooktop/range.
ENERGY STAR® Dryer	**$60** per unit. **$180** heat pump unit.
Electric Water Heater (Tankless not eligible.)	**$50** per unit for new construction. **$100** per unit for natural gas/propane conversion or Demand Response (DR) capable water heaters. **$425** per unit for ENERGY STAR® heat pump water heater. 30 gallon minimum.
Smart Thermostats	**$50** per unit. Must be EnergyStar, WiFi and have learning capabilities. Limit 2 smart thermostats per member account.
Ductless Air-Source Heat Pump (AHRI Certificates required.)	EnergyStar version 6.1 and/or – 7.8 HSPF2. **$500** for systems equal to or, less than 1.5 tons (18,000 BTUs). **$1,500** for systems greater than 1.5 tons (18,000 BTUs). Rebate cannot exceed 50% of equipment cost.
Ducted Air-Source Heat Pump (AHRI Certificates required.)	EnergyStar version 6.1 and/or– 7.8 HSPF2. **$500** for systems equal to or, less than 1.5 tons or 18,000 BTUs. **$1,500** for systems greater than 1.5 tons or 18,000 BTUs. **$500** bonus for dual-fuel; heat pump combined with propane or natural gas. Heat pump required to provide at least 50% of heated area down to 17°F.
Ground Source Heat Pump System	**$850** per ton for new installation. **$425** per ton for existing unit replacements. ENERGY STAR® rated. **$100** per unit for ground source heat pump powered water heaters (a.k.a. desuperheater).
Air-to-Water Heat Pump	**$500** per ton.
Evaporative Cooler	**$200** per unit. Minimum 2500 CFM, no window or portable units.
Whole House Fans	**$100** per unit. Replacement or new installations qualify. Minimum airflow 1500 CFM.
Electric Commercial, Industrial and Irrigation Motors (10-1500 hp)	**$10/HP** up to 500HP and **$8/HP** for motors above 500HP. **$1.50/HP** wiring assistance if motor replaces fossil fuel or is a new install. Contact HEA for form or go online.
Variable Speed Drive (VSD)	Contact HEA for details. Soft start kits added to existing motors are not eligible.
Irrigation & Industrial/Agricultural Auditing	Irrigation: 75% (outside of program) or 100% (until funds depleted, if using a program approved auditor) **of audit cost covered up to $1,500**. New sprinkler packages **50% total cost up to $4000** for each center pivot or 1,300 feet of pivot length, equipment includes pressure regulator, sprinkler head or housing, and the nozzle or orifice. Irrigation assessment required. Industrial/Agricultural: Contact HEA for details.
Energy Assessments	**Small businesses** -100% of assessment cost (if you apply for funding through REAP). Assessments qualify businesses for USDA's Rural Energy for America Program (REAP) grant application funding. Free grant application support for REAP applications. **Large commercial and industrial building** - 75%-100% of assessment cost up to $25,000 **Oil and Gas Assessments** – Free to member, overall program cap of $500k
Income Qualified (Weatherization)	Income-qualified households must meet the income qualifications. Items covered may include insulation for walls, attics, floors, pipes, and ducts, storm windows and doors, replacement windows and doors, caulking, sealing, and weather-stripping & electric water heater insulation. https://www.hea.coop/weatherization
EV Level 2 Charging Station	**50% up to $250** non-managed. Rebate total is split 50:50 between equipment and installation costs. Installation photos required. Electrician receipt required for installation incentive.
